

Warning Notice: Your Child’s Immunization Status

Child’s Name: Date:
School ID : Grade/Class:
School: School Phone:

Dear Parent / Guardian:

We reviewed your child’s health record and found that your child is missing one or more vaccines needed for school entry. Please immediately provide records showing your child received the vaccines listed below. Under Public Health Law § 2164, your child will not be permitted to attend school after \_\_\_/\_\_\_/\_\_\_\_\_ unless you provide documentation that your child has received the required vaccines. Please note: If your child received doses of vaccine BEFORE the minimum age, those doses do NOT count toward the number of doses needed.

Table with 3 columns: Vaccine, Missing Dose #, Notes. Multiple empty rows for data entry.

Note to Providers: Please review the SH65 for details on immunization requirements.

If your child has already received these vaccines, please give the record of immunization to your school principal. Please find attached a copy of the 2019-2020 required school immunization schedule. If you have any questions about the Public Health Law, or to find out more about where your child can get vaccines, please call 311.

Sincerely,

(Principal Name/Signature)

# Is Your Child Ready for Child Care or School?

2019-2020 School Year

## Learn about required vaccinations in New York City

All students ages 2 months to 18 years in New York City must get the following vaccinations to go to child care or school. Review your child's vaccine needs based on their grade level this school year.

VACCINATIONS	Pre-Kindergarten (Child Care, Head Start, Nursery, 3K or Pre-k)	Kindergarten – Grade 5	Grades 6 – 11	Grade 12
Diphtheria, tetanus and pertussis (DTaP)	<b>4 doses</b>	<b>5 doses</b> or <b>4 doses ONLY</b> if the fourth dose was received at age 4 years or older or <b>3 doses ONLY</b> if the child is 7 years or older and the series was started at age 1 year or older	<b>3 doses</b>	
Tetanus, diphtheria and pertussis booster (Tdap)			<b>1 dose (on or after age 11 years)</b>	
Polio (IPV/OPV)	<b>3 doses</b>	<b>4 doses</b> or <b>3 doses</b> if the third dose was received at age 4 years or older	<b>4 doses</b> or <b>3 doses ONLY</b> if the third dose was received at age 4 years or older	<b>3 doses</b>
Measles, mumps and rubella (MMR)	<b>1 dose</b>	<b>2 doses</b>		
Hepatitis B	<b>3 doses</b>	<b>3 doses</b>	<b>3 doses</b> or <b>2 doses</b> of adult Hepatitis B vaccine (Recombivax HB) if the doses were received at least 4 months apart between the ages of 11 and 15 years	
Varicella (chickenpox)	<b>1 dose</b>	<b>2 doses</b>		<b>1 dose</b>
Meningococcal conjugate (MenACWY)			<b>Grades 7, 8, 9 and 10: 1 dose</b>	<b>2 doses</b> or <b>1 dose ONLY</b> if the first dose was received at age 16 years or older
Haemophilus influenzae type B conjugate (Hib)	<b>1 to 4 doses</b> Depends on child's age and doses previously received			
Pneumococcal conjugate (PCV)	<b>1 to 4 doses</b> Depends on child's age and doses previously received			
Influenza	<b>1 dose</b>			

The number of vaccine doses your child needs may vary based on age and previous vaccine doses received. Your child may need additional vaccines or vaccine doses if they have certain health conditions. Talk to your doctor if you have questions. For more information, call 311 or visit [nyc.gov/health](http://nyc.gov/health) and search for **student vaccines**.
